

PACE

Property Assessed Clean Energy

WHAT IS PACE?

Property Assessed Clean Energy (PACE) is a financing mechanism that enables low-cost, long-term funding for energy efficiency, renewable energy and water conservation projects. PACE financing is repaid as an assessment on the property's regular tax bill, and is processed the same way as other local public benefit assessments (sidewalks, sewers) have been for decades. Depending on local legislation, PACE can be used for commercial and nonprofit properties.

HOW DOES IT WORK?

PACE is a national initiative, but programs are established locally and tailored to meet regional market needs. State legislation is passed that authorizes municipalities to establish PACE programs, and local governments have developed a variety of program models that have been successfully implemented. Regardless of model, there are several keystones that hold true for every PACE program.

- PACE is voluntary for all parties involved.
- PACE can cover 100% of a project's hard and soft costs.
- Long financing terms up to 20 years.
- Can be combined with utility, local and federal incentive programs.
- Energy projects are permanently affixed to a property.
- The PACE assessment is filed with the local municipality as a lien on the property.

WHY IS IT SO POPULAR?

Property owners love PACE because they can fund projects with no out-of-pocket costs. Since PACE financing terms extend to 20 years, it's possible to undertake deep, comprehensive retrofits that have meaningful energy savings and a significant impact on the bottom line. The annual energy savings for a PACE project usually exceeds the annual assessment payment, so property owners are cash flow positive immediately. That means there are increased dollars that can be spent on other capital projects, budgetary expenses, or business expansion.

Local governments love PACE because it's an Economic Development initiative that lowers the cost of doing business in their community. It encourages new business owners to invest in the area, and creates jobs using the local workforce. PACE projects also have a positive impact of air quality, creating healthier, more livable neighborhoods.

HOW CAN I GET PACE?

www.Minnpace.com, a division of the St. Paul Port Authority, is the largest provider of PACE financing in Minnesota. They have all the tools and resources you will need to get started with PACE. For more information contact paul.ammerman@northstpaul.org or 651-747-2437.

BENEFITS OF PACE

WORKFORCE DEVELOPMENT:
Creates local jobs

ECONOMIC DEVELOPMENT:
Lowers cost of doing business

BUILDING STOCK:
Maintained and upgraded

BOTTOM LINE:
Directly impacts local businesses

HEALTHY AIR:
Environmental impact

PACENation is the national, nonprofit advocate for PACE financing. We provide leadership, data, support and resources for the growing marketplace.
